### Why Juice Cleanse?

Taking a break from eating solid foods, fueling your body on only fresh raw, nutrient-rich juices is a great way to cleanse. While cleansing, your body gets rest from digesting and can use that energy to clear out old waste and toxins.

Not only will juicing facilitate weight loss, increased energy levels, strengthened immunity, strong bones, and a glowing complexion, it *may* also reduce chances of heart disease, cancer and strokes, the three leading causes of death.

You would need to eat 2 lbs of carrots, 10-12 apples, or 8 lbs of spinach to get the same amount of nutrients you receive in ONE 16 oz juice!

A juice fast is an effective and beneficial way to cleanse, re-hydrate, alkalize, and rebuild your body.

Once you decide which cleanse is best for you, choose which juices you would like for your cleanse.

*24 hours notice prior to the start of your cleanse is greatly appreciated.*
